## WORK EXPERIENCE

### Graymatter Software Services Pvt. Ltd.

Bengaluru, Karnataka

Software Developer

June 2020 – Present

- Served as a Front-end lead for various clients, including BIAL, an aviation company, overseeing the development of their website and mobile application. Some modules I built are T2, Transit Hotel
- Worked on the Kiosk App for BIAL, contributing to the System Design, Token Management, and Folder Structuring, resulting in a user-friendly and efficient check-in process for passengers.
- Worked with Carbon Care as a Front-end lead and developed an analytics dashboard utilizing various visualization tools such as charts, maps, and tables to represent complex data and provide valuable insights to their customers.
- Built a cross-platform React Native application called Compass for BIAL, an employee-facing application, integrating Zoho Forms and working with Camunda and Node to create a ticket, task, and checklist system that is seamless across different types of users. Integrated a calendar system and timeline, along with other features.
- Collaborated on all stages of the systems development lifecycle, from requirement gathering to production releases, ensuring high-quality and timely delivery of the project.
- Worked closely with clients to understand their business requirements and translate them into user-friendly and responsive designs.
- Coordinated with cross-functional teams, including Quality Assurance and Scrum Masters, to ensure seamless integration and timely delivery of project milestones.
- Built and integrated core features such as Token Management, API Services, and Map integration, enhancing the functionality and user experience of the websites, mobile applications, and analytics dashboard.

### Emilda Solutions Pvt Ltd, Bangalore, Karnataka

Bengaluru, Karnataka

UI/UX Designer

February 2019 – January 2020

- I communicated with product managers and UX designers to translate project requirements and business objectives into polished user interfaces.
- Developed Application UIs via emerging Front End Technologies such as React, and Ionic.
- Collaborated with Developers to integrate UI features complying with prescribed code standards and technical design guidelines.
- Conducted research by interviewing external customers.

## LEADERSHIP EXPERIENCE

### Christ University Faculty of Engineering Cul Team

Bengaluru, Karnataka
